Jennifer Smith, Human Resources Manager, appeared to give the board an update of the county office supply vendors. She reviewed state bid pricing from Staples, Office Depot and Office Value, who most county offices currently utilize. She used a listing of commonly ordered supplies and found that Staples could give the cheapest prices. Clerk Steele stated that most offices have certain supply items that can only be ordered from specific vendors. Ms. Smith stated that if a chosen vendor does not carry a specific supply item, the office can order the supply item from another vendor. Discussion followed regarding how ordering, billing and shipments would work for separate county offices.

Sheriff Rick Layher and Chief Deputy Barclay appeared. They will be holding a vehicle auction on December 12th. They have twenty two vehicles set to be auctioned off. Deputy Barclay discussed the courthouse security analysis they conducted in April 2014. In light of a recent event at a local government office in California, he feels that they need to begin to take steps towards putting security barriers in place for employees of the courthouse. Discussion followed.

Jack Yarbrough, Idaho Waste Systems (IWS), Dave Fisher, Republic Services, Marty Jones, Central District Health Department (CDH) and Mayor Tom Rist appeared to discuss landfill issues. Mr. Yarbrough will be getting a new tipper delivered on December 9th and it will be operational on the 10th. Commissioner Corbus wanted the record to reflect that Mr. Yarbrough hired his crane company to place the tipper at Simco Road. Chairman Wootan stated that Mr. Yarbrough sent in the payments for the tipping fees and fuel usage, bringing those current. Attorney Grant asked if Mr. Yarbrough had the financial information the county requested. He did not. Hauling fees were discussed. Commissioner Corbus questioned whether it would be more economical for Republic Services to haul the trash they collect directly to Simco Road instead of going to Bennett Road which is eight miles in the opposite direction. Mr. Fisher will look into what the cost would be for the direct haul. Mr. Yarbrough did some calculations and stated that it costs IWS \$18.50 per ton to operate Bennett Road and haul the trash to Simco Road, then another \$20.00 per ton to bury the trash, so the direct haul would take the \$18.50 fee away for the county. Mayor Rist had a concern regarding the increased cost of direct hauling to Simco Road and if the city would be solely responsible for paying the entire cost of the direct haul. Commissioner Hofer stated that if direct hauling is decided upon, the county would also pay part of the costs. Discussion resumed regarding Mr. Yarbrough's proposed fee increase. He stated that fee increase is necessary because, as the "lender", he cannot continue to put his money into IWS without making a profit or at least breaking even. Cost per ton fees charged at other landfills were discussed. Mr. Yarbrough gave a lengthy discussion regarding his operational costs at IWS and why he feels the fee increase is necessary. Commissioner Corbus wanted to clarify that Mr. Yarbrough is proposing \$18.50 per ton to operate and haul trash from Bennett Road and \$20.00 per ton to bury it at Simco Road. Mr. Fisher pointed out that that is an increase of \$25.00 per ton from what the county is currently paying according to the contract. The board would like to discuss the proposed fee increase further and will continue the discussion at the next meeting.

Motion by Hofer, second by Corbus, to adjourn for lunch.

Motion carried and so ordered.

Regular session resumed.

The board spoke with Dwight Miller, Parametrix, via speaker phone regarding the arid exemption for the Bennett Road Landfill. Chairman Wootan asked for clarification on a document from Parametrix, which

shows an amount of \$16.81 per ton to operate the Bennett Road Landfill. The board would like to know if that price includes equipment to run the landfill or is that just the cost for burying the trash. Mr. Miller stated that the price does include the equipment and the labor to operate the equipment. Discussion followed regarding the cost per ton to continue to haul county trash to Simco Road as opposed to utilizing Bennett Road to dump and bury the trash. The board asked how long it would take to get the arid exemption approved and get Bennett Road up and running as a landfill. Mr. Miller stated that it may take approximately nine months to a year. Commissioner Hofer stated that the county could use Bennett Road as a landfill once the Operations Plan is amended. Mr. Miller stated that it shouldn't take too long to amend the plan. Clerk Steele will get the current operations plan to Mr. Miller.

Chief Deputy Mike Barclay appeared to update the board of the status of the sole source purchasing of cameras for the patrol cars. The notice for the sole source purchase was published and two weeks has passed with no responses. The board will need to approve the purchase of the cameras.

Motion by Corbus, second by Wootan, to approve the purchase of the sole source purchase of cameras for patrol cars.
