PLEDGE OF ALLEGIANCE

PUBLIC MEETING

Ordinance and Comprehensive Plan Work Session

Christy stated that staff included a memo regarding Chapter 13 of the ordinance which is the flood damage prevention ordinance that has been adopted by the county. He stated that the commission should take Chapter 13 in their ordinance and replace it with the most current adopted Chapter 13 ordinance.

Christy stated that a potential zoning error has come up and some guidance is needed on how to proceed with that. He stated that it was regarding some property on Simco Road with a permitted CAFO (Confined Animal Feeding Operation) and is currently zoned light industrial and the owner believes it is an error and should be zoned agriculture. He stated that he has conducted research on the history of the area and it seems that it was an error. He stated that the ordinance states that an error should be corrected as soon as it's discovered. He stated that through research he has found some other areas that may also be zoned incorrectly.

Commission consensus was to make a motion to have staff look into this and prepare any appropriate zoning amendments.

Duerig moved to direct staff to initiate necessary research on the zoning ordinance maps to correct any potential known errors.

Smith seconded.

Motion carried unanimously.

Christy updated the commission members on ordinance and comprehensive plan updates.
