Section 6-1-9: Interpretation:

A. Language:

1. **Terminology:** When used in this Ordinance, all words used in the present tense shall include the future; words used in the singular number shall include the plural number and the plural the singular, unless the natural construction of the sentence indicates otherwise. The word "shall" is mandatory, and the word "may" is permissive.
2. **Number of Days:** Whenever a number of days is specified in this Ordinance, or in any permit, condition of approval, or notice issued or given as provided in this Ordinance the number of days shall be construed as calendar days, except that such time limits shall extend to the following working day when the last of the specified number of days falls on a weekend or Elmore County holiday.
3. **Defined Terms:** Terms defined in this chapter shall have their defined meanings when used elsewhere in this Ordinance. For the purpose of readability and clarity, such terms may not be shown in initial caps.
4. **Section Headings:** Section headings or captions are for reference purposes only and shall not be used in the interpretation of this Ordinance.
5. **References:** All references to State or Federal laws and/or regulations shall refer to such laws and/or regulations as they may be amended over time.

B. Measurements:

1. **Structure height:** Shall be measured as the vertical distance from the average contact ground level at the front wall of a building to the highest point of the coping of a flat roof, the deck line of a mansard roof, or the average height (mid-point) of the highest gable of a pitch or hip roof.
2. **Linear distance:** Shall be measured in a horizontal line; it shall not be measured along an inclined surface or line. For uses that have a separation standard, the distance shall be measured from the nearest customer entrance of the proposed use to the nearest property line of the specified use. The measurement is to be conducted in a radial fashion by the specified number of feet (e.g., 300 feet, 1,000 feet).
3. **Illumination levels:** Shall be measured with a calibrated photoelectric photometer or similar device capable of accurate measurement of foot-candle or lumens when measured one foot (1') from the light source.
4. **Noise levels:** Shall be measured at the property line with a calibrated noise meter or similar device capable of accurate measurement (dB, decibel) of sound.

C. District Boundaries: Legal descriptions shall be adopted with all official zoning maps. Where uncertainty exists about the location of any district boundary shown on the official zoning map, the following rules shall be used to resolve the uncertainty:

1. Where a district boundary approximately follows a property line, such property line shall be construed as the district boundary; and
2. Where a district boundary approximately follows a street, alley, or railroad line, such street, alley, centerline, or the extension of such line, shall be construed as the district boundary. Where a street or alley is officially vacated and that street or alley has not been given a zoning designation, the land that was formerly in the vacated street or alley shall have the same designation as the abutting property on either side of the centerline of the vacated street or alley; and
3. Where a district boundary approximately follows a watercourse, the centerline of the watercourse shall be construed to be such boundary. In the event of a change in the watercourse shoreline, the boundary shall be construed as moving with the actual shoreline.

D. Conflicting Regulations:

1. In case of conflict between the text and the maps of this Ordinance, the text shall prevail; and

2. If conflicts occur between different regulations of this Ordinance, or between this Ordinance and other regulations of this Ordinance, the most restrictive regulation shall apply unless otherwise specified by other regulations of this Ordinance.

E. Allowed Uses: If a proposed use of property is not specifically listed in Title 7, Chapter 2, Zoning and Overlay Districts, of this Ordinance, the use shall be prohibited, except as follows: The Director may determine that a proposed use not listed in this Ordinance is equivalent to an allowed or conditional use if the Director finds all of the following:

1. The impacts on public services and activities associated with the proposed use are substantially similar to those of one or more of the uses listed in the applicable base or overlay districts as allowed; and
2. The proposed use shall not involve a higher level of activity or density than one or more of the uses listed in the applicable base or overlay districts as allowed; and
3. The proposed use is consistent with the purpose of the district in which the use is proposed to be located; and
4. The proposed use is in substantial conformance with goals and objectives of the applicable Comprehensive Plan.

1. An error caused by the County, shall be corrected and duly processed by the County as soon as the error is discovered; and
