GPS Interruptions

MOUNTAIN HOME AIR FORCE BASE, Idaho – Between September 1-4, and 8-11, Mountain Home Air Force Base will be conducting training approximately 30 miles, south, southeast of Bruneau through the general Bruneau and base area. We anticipate that at points between 9:00 a.m-5:30 p.m. on these dates, devices in that area that rely on GPS may malfunction. Those who have agricultural equipment or other devices may be impacted during this time and we are working with the Idaho Farm Bureau to pass this information along. We thank you for your patience and understanding as we undertake a critical training mission to ensure our readiness for national defense! This training ensures that we are prepared for real-world combat and remain lethal and agile. Thank you for your patience and understanding, and if you have any questions, please contact the Mountain Home AFB Public Affairs office at: (208) 828-6800 or email us at: 366FW.PA.Public.Affairs@us.af.mil
