AGRICULTURAL BUILDING EXEMPTION STATEMENT

This document must be recorded at the Elmore County Clerk's Office, located in the County Courthouse at 150 South 4th East, Suite 3, Mountain Home, ID 83647. Once the permit has been approved through the Land Use and Building Department. Failure to do so could result in revocation of permit.

I, _____, attest that the proposed building meets the definition of an agricultural building as defined by International Building Code:

An Agricultural building is a structure designed and constructed to store farm implements, hay, grain, poultry, livestock, or other horticultural products used exclusively for agriculture. The structure shall not be a place of human habitation or a place of employment where agricultural products are processed, treated or packaged, nor shall it be a place used by the public.

I understand as an agricultural building, exempt from Elmore County building permit requirements, that the building will not be inspected for compliance with International Building Codes. The site will be inspected for conformity with road setbacks, County Ordinance setbacks and utility setbacks.

I understand that exemption from the County building permit requirements does not exempt the property owner from other state and federal requirements.

I understand the construction of the building is the liability of the property owner at the time of construction and any change to the use of the building may constitute a violation of County Ordinances.

I have applied for an agricultural building permit for the following:
